Date

RECEIVED
FEB 27 2023
Department of Water Resources
Eastern Region.

Pursuant to Section 42-606 Idaho Code, this Watermaster's Annual Report shall be filed prior to the end of the watermaster's appointment for the current year, and kept in the office of the Idaho Department of Water Resources (IDWR). The Watermaster's Daily Diversion Records should be attached to this report if those records are not submitted electronically to IDWR.

Water District 29 D
2022 Watermaster Report
February 27th, 2023
By: Kristin Evans

- I would like to thank IDWR Director Gary Spackman for authorizing IDWR employees to assist me with watermaster services this season. I would also like to thank the IDWR assistants for their help this season. I appreciate all of their hard work. It helped to keep our district running smoothly. I am truly grateful to all that helped out from IDWR this season.
- The Total Volume (24 HR CFS) of water delivered to water users in the district was 1903.02 24HR CFS. This number is derived from measured diversion and an estimate of water diverted by water users that divert less than five acres and do not require measuring devices to be installed. Estimates were calculated based on the sum total of the authorized rate of the water right x 85 days.
- Points of diversion that did not have measuring devices installed or water rights out of priority with the Snake River were curtailed. Some diversions were locked. Water users were curtailed if their priority date was junior to the priority date being delivered on the Snake River. Junior water users who leased exchange water from the Tribe for mitigation were permitted to irrigate out of priority with the Snake River. 29 water users leased mitigation water from the Tribe.
- The total expenses for the district were \$18,445.00
- The total number of days I worked was 95 as of December 14th, 2022.
- Attached is the spreadsheet with my records of distribution and the Tribal delivery.

2022 Tribal Exchange Water Delivery for WD29D and WD29H

| Renter | AF Rented | StartDate | AF / day | Last day of delivery | 10/1/2022 | Total Rentals (AF) | 619 |

Daily delivery = total quantity of Tribal storage water released each day for the remainder of the rental period
or season of use
= the sum of column 'AF / day'

--###=- Additional rentals of tribal water can be added -
=###=-
'StartDate'
- 'AF / day' will calculate automatically
- 'Daily delivery' will AUTOMATICALLY update to include the additional 'AF / day'

AF Rented = Total quantity of water rented by the Water User for the season
StartDate = The first day that rented water WILL BE from storage for a given Renter
DIVERTED = NOT the date that the rental agreement was made
Last day of delivery = the last day that Tribal storage water will be released on behalf of the Renters
** Once delivery of Tribal storage water begins, DO NOT

Note- When annually updating or changing table information, only delete entries in columns A, B, and C. Don't delete anything in Column D.
